

SUGAR Consortium Meeting 6 will be held in Bruxelles from the **3rd to 6th May**. The Agenda is available

[HERE](#)

. The meeting will take place at POLIS venue in Rue du Trône 98 - 1050 Brussels.

---

SUGAR invites you to its workshop on 3 May in Brussels, where Good Practice Sites Emilia Romagna, Paris, London and Barcelona will share their experiences in the field of sustainable urban freight management and logistics, as well as present intermediate project findings.

SUGAR has been looking into the following policy leverages:

- **transport:** access control, circulation, regulation pricing, signage, intelligent communication technologies applied to transport, etc.;

- **environment:** incentives for using clean vehicles and modes, regulations on vehicle typologies and usage in critical environmental zones, etc.,

- **space and territory:** planning and development of distribution areas, loading areas, industrial zones, economic development zones, etc.

These policy leverages, together with partnership building with logistics and transport operators, are the necessary ingredients to creating a tailored solution for more efficient urban freight transport management. **Registration deadline extended until 29 April 2011!**

**When:** 3 May 2011, 14.00 - 17.00 h

**Where:** University Foundation, rue d'Egmont 11, 1000 Brussels

The 3rd **Joint Planning Exercise** took place in Prague on 17th, 18th and 19th of January 2011. The JPE was divided in two sessions for transport problems solving in Ústí nad Labem and Prague.

---

### **SUGAR Seminar: “Urban freight management : an exchange of good practices in the European context and beyond”**

On 16 of November, the Central European Initiative has successfully organised in Tirana the seminar on “Urban Freight Management: an Exchange of Good Practices in the European context and beyond” in the framework of the SUGAR Project (Sustainable Urban Goods logistics Achieved by Regional and local policies), co-financed by the European Regional Development Fund and made possible by the INTERREG IVC programme.
